Amish Kraft Company

The Lengacher Family nestled in the rural area of Allen County, Indiana established Amish Kraft Company in 1982. This Company was founded to help provide additional income to the Amish family as they grow and become involved in manufacturing. The plant's equipment is run by diesel engine power since high-line electricity is prohibited by the faith. Our creative traditional family provides unique designs and a steady flow of custom artwork for the souvenir industry across America. We have four family generations here at the factory. Our continued goal here at Amish Kraft Company is to keep alive the Amish Heritage family lifestyle and morals in order to provide you with the best in White Metal souvenirs from the Amish Country. *Made in the USA. Gift Shop Buyers know that one phone call to our family owned business lets them place their order, get custom artwork to finished product, and convenient customer service. Call 1-800-617-6680.

Openers Plus

Openers Plus was established in 1990 and has become the largest manufacturer of bottle openers in the United States. Openers Plus creates many of the bottle openers you find in retail and promotional markets. The past two years, Openers Plus has been creating and establishing a new trend, by combining the bottle opener market with the wearable market. Check out our popular Bottle Opener baseball cap at www.GETtheTOPOFF.com. Yes, we invented it.

The Rose Lady

The Rose has long been a symbol of love and beauty.

Leaves are the most graceful sign of life since the beginning of time. Now, this gift of nature has been handpicked, carefully selected, sized and preserved to bring beauty and grace into your environment. They are preserved through a very delicate process by individually coating them with lacquer or copper to keep their natural veins visible. They are then dipped in precious metal such as 24k gold, silver, iridescent copper and some of them are lacquered and trimmed in gold. Handcrafted and transformed into a timeless beauty of nature that you can treasure forever. **The Rose Lady** specializes in real items of nature such as roses, orchids and leaves transformed into the most exquisite gift items. Anyone who receives such a gift will be amazed by the grace and beauty of the natural world. Since 1993, **The Rose Lady** brings people closer to nature by presenting them with a marvelous collection of real nature products preserved in precious metal. www.theroselady.com

LCI - Leisure Craft Industries

LCI - Leisure Craft Industries, has been serving the resort industry since 1972. As a leader in the destination apparel market, LCI designs and manufactures a complete line of high quality proprietary garments for men, women and children including jackets, sweatshirts, knits, shorts, fashion Tees and vests. All garments are designed and manufactured by LCI and feature their BEACON POINT trademark. All decoration of embroidery and screen printing is done in the USA and all LCI apparel proudly display a USA logo. The Four Seasons jacket and the Waterproof Mates Jacket are two of the hottest items for LCI customers. Custom embroidery & screenprinting is a part of all LCI garments and is offered without additional charge. Customers can submit their own artwork or choose from over 900 eye-popping designs. The company is actually two companies in one. In addition to the LCI line of Beacon Point apparel, the company has a resort gift division with imported gifts and novelties from around the globe. Antique tavern signs, home and garden decor, glass, ceramics, jelly candles, chimes, flags and whimsical novelties are just a few of the many distinct gift items LCI has to offer. LCI is headquartered in Wildwood, New Jersey with additional distribution and manufacturing facilities in Central Pennsylvania.
